MISSION
Through superior academics and mentoring, The Colorado Springs School prepares students to think independently and to meet the challenges of a dynamic world with leadership, ingenuity, problem-solving skills, and personal integrity.

2023-2024 UPPER SCHOOL PROFILE

Established in 1962, The Colorado Springs School is a college-preparatory, day, and international school serving students from PreKindergarten through high school. We proudly serve students from across the Pikes Peak region, as well as international students. The school sits on 28 acres with eight buildings, which include an innovation lab, a 300-seat performance theatre, art studios, a field house, and athletic fields.

CAPTURING THE COLORADO SPRINGS SCHOOL

PHILOSOPHY
The Colorado Springs School is a college-preparatory school based on the belief that the closer the link between learning and experience, the more meaningful the resulting knowledge will be. Our goal is to prepare students for college and for life by equipping them with thinking and problem-solving skills, self-confidence, compassion, and a love of learning. We prepare students to meet the challenges of a dynamic world.

RELATIONSHIPS
Small class sizes mean teachers and students connect one-on-one. Students are known by every teacher and receive extensive, individualized feedback. Each student has a faculty advisor who monitors academic progress, establishes a supportive relationship, and communicates, as needed, with parents. CSS incorporates the Yale RULER Program, where students cultivate social and emotional skills that help them develop into healthy adults.

EXPERIENTIAL EDUCATION
At CSS, students learn by doing. Our programs immerse them in hands-on activities in the classroom and beyond. We explore through curriculum-based seminars and adventures, both locally and across the globe. Intentional challenges stimulate students' academic and social growth.

CLASS OF 2022 FAST FACTS:
- Average ACT Score: 26.5
  - National Average: 20.6
  - Colorado Average: 23.2
- Average SAT Score: 1226
- $3.7 million in merit scholarships received

**ACADEMIC INFORMATION**

**AP AND ADVANCED COURSES:** CSS offers 13 AP Courses as well as Advanced courses. Students are eligible to take AP courses as early as their sophomore year.

**CALENDAR:** Our academic schedule maximizes the number of courses we offer. A block system allows for a variety of class lengths (52 & 72 minutes). The longer periods enable in-depth discussions, field experiences, and lab work.

**COLLEGE PLACEMENT:** One hundred percent of all CSS graduates go on to initiate a post-secondary educational experience.

---

**SIGNATURE LEARNING EXPERIENCES**

**EXPERIENCE-CENTERED SEMINARS (ECS)**
Each March, students embark on a three-week intensive study known as Experience-Centered Seminars. The curriculum is anchored by essential questions that require a multi-disciplinary approach. Though each one explores a unique theme, geographic location, and variety of immersive experiences, all are unified by rigorous and academic inquiry. ECS topics have included the study of geothermal energy in Iceland, local homeless challenges in Colorado Springs, and biodiversity in Madagascar, to name a few.

**SENIOR CAPSTONE**
Seniors embark on an individualized, student-generated Capstone for three weeks at the end of their senior year. They identify their area of interest, envision their own project, conduct interviews with professionals outside of CSS, and secure a community mentor. The project culminates in a presentation to outside mentors, faculty, peers and parents. Capstones help students explore potential career goals and interests.

**DIGITAL PORTFOLIO**
Students deepen their learning and strengthen their skills by reflecting on experiences in Digital Portfolio, an online digital collection of their best work. They select pieces as “artifacts” that capture their understanding of one of eight capacities such as leadership and teamwork and global perspective. Digital portfolios provide a longitudinal record of learning for students and prospective colleges that is more real and comprehensive than standardized testing.

---

**CURRICULUM AND GRADUATION REQUIREMENTS**
Our AP and advanced courses, bolded below, are the most rigorous courses we offer in each discipline and students are prepared for the appropriate AP exam. A minimum of 24 credits are required for graduation.
